

# Night Sea

$$x \rightarrow h \times m \quad | \text{Periods} - 1$$

$$y \rightarrow k \times n \quad | \text{waves} - 1$$

$$h = \frac{3}{4}T \quad T = \frac{W}{\text{Periods}}$$

$$k = \frac{A}{2} \quad A = \frac{2H}{\text{waves}}$$

Periods = 2 Waves = 5
